EXPERIENCE

Bigreene, Menya - El Qamh — Front-End Mobile App developer

9/ 2025 - PRESENT

Bigreene is my startup. I've developed a simple real-time chat app (BChat) that was built with MERN-Stack.

EDUCATION

FIS, Al Ahrar road, Zagazig — High School student

9/ 2016 - PRESENT

My school is El Fouad International School (American Division). I'm studying there from 2016 - 2028 (Expected).

PROJECTS

Fast Store - E-commerce website UI

This is the first project I made for a local sports-clothes store using ReactJS, TailwindCSS, JavaScript, CSS, and HTML. Project completed on 19 Jul 2025.

TaskMaster - Task Management app

This is the second project I made for myself for task management. It's a CRUD app which you can Create, Read, Edit (Update), and Delete your Todos. Also, your data was saved in your machine's local storage. It was made with React and Tailwind CSS.

BChat - MERN realtime chatting app

This is the Third project I made for my startup (Bigreene). It's a simple chatting app made with MERN (MongoDB, Express, React, [Node.js](https://nodejs.org/)). I know that it was simple, but in future updates and if teamwork is available, it'll be great.
